## Materials You Will Need

- Size 11 seed beads in your desired colors

- A beading needle
- Beading thread
- Scissors

## **Getting Started**

Before you begin stitching your star, you will need to gather your materials and prepare your thread. To prepare your thread, simply thread a needle onto the end of the thread and tie a knot in the other end. You can then start stitching by following the instructions for your chosen project.

## **Basic Peyote Stitch**

The peyote stitch is a simple beading stitch that is used to create flat or tubular shapes. To stitch the basic peyote stitch, you will need to follow these steps:

1. Thread a bead onto your needle.
2. Pass the needle through the bead from right to left.
3. Thread another bead onto your needle.
4. Pass the needle through the next bead from left to right.
5. Continue stitching in this way, passing the needle through the beads from right to left and then from left to right.

## **3D Peyote Stitch**

The 3D peyote stitch is a variation of the basic peyote stitch that is used to create three-dimensional shapes. To stitch the 3D peyote stitch, you will need to follow these steps:

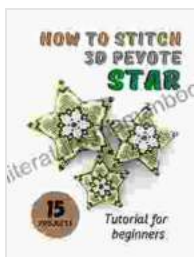

1. Thread a bead onto your needle.
2. Pass the needle through the bead from right to left.
3. Thread another bead onto your needle.
4. Pass the needle through the next bead from left to right.
5. Thread a third bead onto your needle.
6. Pass the needle through the bead from right to left.
7. Thread a fourth bead onto your needle.
8. Pass the needle through the next bead from left to right.
9. Continue stitching in this way, passing the needle through the beads from right to left and then from left to right.

## Projects

Now that you know how to stitch the basic peyote stitch and the 3D peyote stitch, you can start stitching your own 3D beaded stars. Here are 15 different projects to get you started:

1. **Simple Star:** This is a great project for beginners. It is a simple star that is made up of only two colors of beads.
2. **Five-Pointed Star:** This star is a little more challenging than the simple star, but it is still a great project for beginners. It is a five-pointed star that is made up of three colors of beads.
3. **Six-Pointed Star:** This star is a little more complex than the five-pointed star, but it is still a great project for beginners. It is a six-pointed star that is made up of four colors of beads.

4. **Eight-Pointed Star:** This star is a little more challenging than the six-pointed star, but it is still a great project for beginners. It is an eight-pointed star that is made up of five colors of beads.
5. **Ten-Pointed Star:** This star is a little more complex than the eight-pointed star, but it is still a great project for beginners. It is a ten-pointed star that is made up of six colors of beads.
6. **Twelve-Pointed Star:** This star is a little more challenging than the ten-pointed star, but it is still a great project for beginners. It is a twelve-pointed star that is made up of seven colors of beads.
7. **Fourteen-Pointed Star:** This star is a little more complex than the twelve-pointed star, but it is still a great project for beginners. It is a fourteen-pointed star that is made up of eight colors of beads.
8. **Sixteen-Pointed Star:** This star is a little more challenging than the fourteen-pointed star,
